Green Leads Anti-Parker Fight; Calls For Wide-Visioned Judges

[illegible]

President Green explained how the labor injunction is used to enforce the law. "The yellow dog," he said, "simply makes union labor a painting on the wall."

Bills Score;
enate Agencies

Washington, April 12. — A Senate committee approved two

manufacturers ignore the dire situation, which was referred to by President Ed. A. "shading off" in employment of holding hearings to postpone action on remedial action was effectively used by shipowners. The King bill, now pending in Congress, would end the bootlegging of thousands of aliens by refusing to issue papers to ships that cannot show American ports with less than used on arrival. Ever since the King bill was presented, each one is refuted by the testimony of the fishermen, the seamen, another one is refuted by the testimony of the men who profess they are not bootleggers. The King bill by the loudest patriotism in the country has finally been approved by a Senate committee.

**OLD AGE PENSION PLAN
APPROVED IN NEW YORK**

ington, April 12.—Admission of Mexican immigrants to work in the Pacific Southwest fruit and vegetable industry was favored by Charles McNamara, member Federal Farm Bureau, at a Senate committee hearing today. McNamara and his Farm Board colleagues urged farmers to plant less wheat and tobacco, but he stressed unrestricted immigration for vegetables.

"This kind of work is of the 'knock-out' type and white labor won't do it," McNamara said. "It's this kind of work—if there's anything else—because of the low wage scale."

The bill would fix the minimum wage scale as of last year, but give the president authority in determining the number of immigrant labor and gave the surplus information that these workers were needed last season.

Old-age security advocates declare the bill "is not a goal but a beginning."

PLANT LESS WHEAT

labor is preferred on railroads in the North and Middle West. Mexican laborers are willing to "junk" the contractors' supplies.

Under a Kansas law it is illegal for wage earners to suspend work, even if there is a surplus of labor and the need for shorter hours is apparent.

GARNERS WILL MEET TO DISCUSS TEXTILE

STATE UNIONS TO MEET
Pueblo, Colo., April 12.—State Federation of Labor convention will be held in

the textile industry and is largely responsible for unemployment," said Governor Gardner. "The distress of farmers in the state is indicated by the Governor's statement that another problem considered is 'relief from the Government in the foreign market for farm products'."

of five "can be honestly supported" is \$136 a month, and that this means "hewing close to the line."
